Section 1: Product & Company Identification

Product Name: Weld Check® Developer (aerosol)
Product Number (s): 03107
Product Use: Developer for non-destructive weld testing

Manufacturer / Supplier Contact Information:

In United States: CRC Industries, Inc.
885 Louis Drive
Warminster, PA 18974
www.crcindustries.com
1-215-674-4300 (General)
(800) 521-3168 (Technical)
(800) 272-4620 (Customer Service)

In Canada: CRC Canada Co.
2-1246 Lorimair Drive
Mississauga, Ontario L5S 1R2
www.crc-canada.ca
1-905-670-2291

In Mexico: CRC Industries Mexico
Av. Benito Juárez 4055 G
Colonia Orquidea
San Luis Potosi, SLP CP 78394
www.crc-mexico.com
52-444-824-1666

24-Hr Emergency – CHEMTREC: (800) 424-9300 or (703) 527-3887

Section 2: Hazards Identification

Emergency Overview

DANGER: Extremely Flammable. Harmful or Fatal if Swallowed. Contents Under Pressure
Appearance & Odor: White powder with solvent odor

Potential Health Effects:

ACUTE EFFECTS:
EYE: May cause eye irritation. Vapors may irritate eyes.
SKIN: Prolonged contact may cause irritation or defatting of the skin.

INHALATION: May cause nose and throat irritation. May cause nervous system depression characterized by the following progressive steps: headache, dizziness, nausea, staggering gait, confusion, unconsciousness. Reports have associated repeated and prolonged overexposure to solvents with permanent brain and nervous system damage. Eye watering, headaches, nausea dizziness and loss of coordination are signs that solvent levels are too high.

INGESTION: If aspirate (liquid enters the lungs), it may be rapidly absorbed through the lungs and result in injury to other body systems. May cause gastro-intestinal distress.

CHRONIC EFFECTS: Prolonged overexposure to solvents may lead to permanent brain and nervous system damage.

TARGET ORGANS: central nervous system

Medical Conditions Aggravated by Exposure: Unknown

See Section 11 for toxicology and carcinogenicity information on product ingredients.
Section 3: Composition/Information on Ingredients

Section 4: First Aid Measures

Eye Contact: Immediately flush with plenty of water for 15 minutes. Call a physician if irritation persists.

Skin Contact: Remove contaminated clothing and wash affected area with soap and water. Call a physician if irritation persists. Wash contaminated clothing prior to re-use.

Inhalation: Remove person to fresh air. Keep person calm. If not breathing, give artificial respiration. If breathing is difficult give oxygen. Call a physician.

Ingestion: Do not induce vomiting. Call a physician immediately.

Note to Physicians: If ingested, material may be aspirated into the lungs and cause chemical pneumonitis. Treat symptomatically.

Section 5: Fire-Fighting Measures

Flammable Properties: This product is extremely flammable in accordance with aerosol flammability definitions (16 CFR 1500.3(c)(6)).

Flash Point: 23°F / -5°C (TCC)  
Autoignition Temperature: 759°F / 404°C  
Upper Explosive Limit: 11  
Lower Explosive Limit: 1

Fire and Explosion Data:
Suitable Extinguishing Media: water fog, foam, dry chemical or carbon dioxide

Products of Combustion: oxides of carbon

Explosion Hazards: Aerosol containers, when exposed to heat from fire, may build pressure and explode. Vapors can accumulate and create a flammable atmosphere.

Protection of Fire-Fighters: Firefighters should wear self-contained, NIOSH-approved breathing apparatus for protection against suffocation and possible toxic decomposition products. Proper eye and skin protection should be provided. Use water spray to keep fire-exposed containers cool and to knock down vapors which may result from product decomposition.

Section 6: Accidental Release Measures

Personal Precautions: Use personal protection recommended in Section 8. Avoid contact with skin and eyes.

Environmental Precautions: Take precautions to prevent contamination of ground and surface waters. Do not flush into sewers or storm drains.

Methods for Containment & Clean-up: Remove sources of ignition. Dike area to contain spill. Ventilate the area with
fresh air. If in confined space or limited air circulation area, clean-up workers should wear appropriate respiratory protection. Recover or absorb spilled material using an absorbent designed for chemical spills. Place used absorbents into proper waste containers.

**Section 7: Handling and Storage**

Handling Procedures: Avoid contact with skin and eyes. Avoid breathing vapors. Do not use near sources of ignition, including open flame or sparks or on energized equipment. Do not heat material. Potentially toxic or irritating fumes may be evolved from heated material. Use caution around energized equipment. The metal container will conduct electricity if it contacts a live source. This may result in injury to the user from electrical shock and/or flash fire. For product use instructions, please see the product label.

Storage Procedures: Store in a cool dry area out of direct sunlight. Aerosol cans must be maintained below 120°F / 49°C to prevent cans from rupturing.

Aerosol Storage Level: III

**Section 8: Exposure Controls/Personal Protection**

N.E. – Not Established (c) – ceiling (s) – skin (v) – vacated

**Controls and Protection:**

Engineering Controls: Area should have ventilation to provide fresh air. Local exhaust ventilation is generally preferred because it can control the emissions of the contaminant at the source, preventing dispersion into the general work area. Use mechanical means if necessary to maintain vapor levels below the exposure guidelines. If working in a confined space, follow applicable OSHA regulations.

Respiratory Protection: None required for normal work where adequate ventilation is provided. If engineering controls are not feasible or if exposure exceeds the applicable exposure limits, use a NIOSH-approved cartridge respirator with organic vapor cartridge. Air monitoring is needed to determine actual employee exposure levels. Use a self-contained breathing apparatus in confined spaces and for emergencies.

Eye/face Protection: For normal conditions, wear safety glasses. Where there is reasonable probability of liquid contact, wear splash-proof goggles.

Skin Protection: Use protective gloves such as butyl rubber. Also, use full protective clothing if there is prolonged or repeated contact of liquid with skin.

**Section 9: Physical and Chemical Properties**
Product Name: Weld Check® Developer (aerosol)
Product Number(s): 03107

Physical State: liquid (in container)
powder (dispensed product)

Color: white
Odor: solvent
Odor Threshold: ND
Specific Gravity: 0.726
Initial Boiling Point: 173°F / 79°C
Freezing Point: ND
Vapor Pressure: 78 mmHg @ 68°F / 20°C
Vapor Density: > 1 (air = 1)
Evaporation Rate: fast
Solubility: slight
Coefficient of water/oil distribution: ND
pH: NA
Volatile Organic Compounds: wt %: 93 g/L: 676 lbs/gal: 5.62

Section 10: Stability and Reactivity

Stability: Stable
Conditions to Avoid: heat, sources of ignition
Incompatible Materials: strong oxidizers, nitric and acetic or sulfuric acids, amines
Hazardous Decomposition Products: oxides of carbon (thermal decomposition)
Possibility of Hazardous Reactions: No

Section 11: Toxicological Information

Long-term toxicological studies have not been conducted for this product. The following information is available for components of this product.

Acute Toxicity:

Reproductive Toxicity: No information available
Teratogenicity: No information available
Mutagenicity: No information available
Synergistic Effects: No information available
Section 12: Ecological Information

Ecological studies have not been conducted for this product. The following information is available for components of this product.

Ecotoxicity: No information available
Persistence / Degradability: No information available
Bioaccumulation / Accumulation: No information available
Mobility in Environment: No information available

Section 13: Disposal Considerations

Waste Classification: The liquid product is a RCRA hazardous waste for the characteristics of ignitability and toxicity with the following potential waste codes: D001, D035. The dried powder is not expected to be a hazardous waste. (See 40 CFR Part 261.20 – 261.33)
Aerosol containers should be fully emptied and depressurized before disposal. Empty containers may be recycled.

All disposal activities must comply with federal, state, provincial and local regulations. Local regulations may be more stringent than state, provincial or national requirements.

Section 14: Transport Information

US DOT (ground): UN1950, Aerosols, flammable, 2.1, limited quantity**
ICAO/IATA (air): UN1950, Aerosols, flammable, 2.1, limited quantity
IMO/IMDG (water): UN1950, Aerosols, 2.1, limited quantity
Special Provisions: **This product can be classified and labeled as ‘Consumer Commodity, ORM-D’ for domestic ground shipping.

Section 15: Regulatory Information

U.S. Federal Regulations:

Toxic Substances Control Act (TSCA): All ingredients are either listed on the TSCA inventory or are exempt.

Comprehensive Environmental Response, Compensation and Liability Act (CERCLA): Reportable Quantities (RQ’s) exist for the following ingredients: methyl ethyl ketone (5000 lbs)

Spills or releases resulting in the loss of any ingredient at or above its RQ require immediate notification to the National Response Center (800-424-8802) and to your Local Emergency Planning Committee.

Superfund Amendments Reauthorization Act (SARA) Title III:
Section 302 Extremely Hazardous Substances (EHS): None
Section 311/312 Hazard Categories: Fire Hazard Yes
Reactive Hazard No
Release of Pressure Yes
Acute Health Hazard Yes
Chronic Health Hazard No
Product Name: Weld Check® Developer (aerosol)
Product Number(s): 03107

Section 313 Toxic Chemicals: This product contains the following substances subject to the reporting requirements of Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372:
- Zinc stearate (zinc compounds)

Clean Air Act:
- Section 112 Hazardous Air Pollutants (HAPs): methyl ethyl ketone

Occupational Safety and Health Administration:
This product is regulated by the Hazard Communications Standard.

U.S. State Regulations:

California Safe Drinking Water and Toxic Enforcement Act (Prop 65):
This product may contain the following chemicals known to the state of California to cause cancer, birth defects or other reproductive harm: None

Consumer Products VOC Regulations: This product is not regulated.

State Right to Know:
New Jersey: 14807-96-6, 78-93-3
Pennsylvania: 14807-96-6, 557-05-1, 78-93-3
Massachusetts: 14807-96-6, 78-93-3
Rhode Island: 14807-96-6, 78-93-3

Canadian Regulations:

Controlled Products Regulations:
This product has been classified in accordance with the hazard criteria of the Controlled Product Regulation and the MSDS contains all the information required by the Controlled Products Regulations.
- WHMIS Hazard Class: A, B5, D2B

Canadian DSL Inventory: All ingredients are either listed on the DSL Inventory or are exempt.

European Union Regulations:

Additional Regulatory Information: None

Section 16: Other Information
